

Hodnet Footpath Group

Since 2010 we think we've achieved a lot - and also had some fun doing it. **Why not join us?**

Things we've done:

- Built/repaired stiles
- Made some stiles 'dog friendly'
- Helped create the Hodnet to Marchamley permissive path
- Assisted in the maintenance of the Wollerton Wetlands
- Got Shropshire Council to reinstate a missing path & stiles at Fauls

- Added way-markers to routes in our area
- Cut back vegetation/killed nettles
- Arranged many public walks
- Liaised with other footpath groups in our area
- Published (7) local walk leaflets - to encourage greater use
- Promoted Hodnet as a walking area in local media/on the village website
- Worked with Shropshire Council - as one of their official 'P3' groups
- Had the old Hodnet railway line (glow worm walk) made a (legal) public right of way

Currently, we are:

- Drafting (2) further walk leaflets
- Arranging public walks & work parties
- Working with Stoke on Tern footpath group to clarify the status of an unmapped path from Ollerton to Peplow

What (else) would you like to help us to do?
